Bergeijk, North Brabant - Residence Permit in the Netherlands (2028)

----- PROFESSIONAL SUMMARY -----

Various roles in supply chain environment gave me a chance to define and understand the real needs of different departments. My business improvement approach that is utilizing manufacturing and planning experience, LEAN, and IT literacy has led to many successes throughout my career. Moreover, managerial perspective, continuous improvement approach and the effective use of value-added technology are my core strengths. With these, I have initiated and led numerous improvement projects in manufacturing and production planning, delivering measurable and sustainable results.

----- AREAS OF EXPERTISE -----

PROFESSIONAL SKILLS

Project Management | Capacity Planning & Scheduling | Analyzing and Reporting | Expense Budgeting | Lean Six Sigma (LSS) | Data Visualization & Insights | Stakeholder Management | Analytical Thinking

TECHNICAL SKILLS

Excel VBA | Power BI | SAP PP | Value Stream Mapping (VSM) | Voice of the Customer (VOC) | Hoshin Kanri | Problem Solving | GMP | Deviation & CAPA Management

----- PROFESSIONAL EXPERIENCE -----

OPERATIONAL EXCELLENCE EXECUTIVE, Abdi Ibrahim | Istanbul 03.2020 – 06.2022

The leader of Turkey's Pharmaceutical Industry. The factory with the most complex production processes.

- Led strategic initiatives to drive operational excellence and process improvement across multiple departments.
- Utilized advanced data analytics (Power BI, SAP) to provide actionable insights and drive performance improvements.
- Introduced Value Stream Mapping (VSM) methodology, enhancing process visibility and improvement opportunities.

PRODUCTION SCHEDULING SPECIALIST, Abdi Ibrahim | Istanbul 07.2018 – 03.2020

- Developed detailed production schedules by analyzing production priorities, capacity constraints, and material availability.
- Collaborated closely with production teams, planning teams and other departments to coordinate production workflows, adjusting schedules based on real-time operational changes.
- Developed an automated production planning system using Excel VBA, reducing monthly planning time from 4 days to 1 hour.
- Created a Power BI dashboard for real-time monitoring of production schedules and KPIs, enhancing visibility and decision-making processes.

OPERATIONAL EXCELLENCE LEAD, Amgen - Mustafa Nevzat (Gensenta) | Istanbul 03.2018 – 07.2018

- Promoted continuous improvement and LEAN practices across raw material and production plants.
- Conducted benchmarks and prepared action plans prior to global audits.
- Established and coached the OpEx Core Team to lead improvement efforts across departments.
- Reported stability phase KPIs to the Global OpEx Department.

PRODUCTION SUPERVISOR, Amgen - Mustafa Nevzat (Gensenta) | Istanbul 03.2016 – 03.2018

- Ensured compliance with GMP, SOPs, and safety regulations during production processes, maintaining the highest standards of product quality and safety.
- Collaborated with cross-functional teams (Quality Assurance, Maintenance, and Supply Chain) to troubleshoot production issues and optimize performance. Conducted root cause analysis for any deviations.

PRODUCTION ENGINEER, Amgen - Mustafa Nevzat (Gensenta) | Istanbul 12.2014 – 03.2016

----- PROJECTS & ACCOMPLISHMENTS -----

- **Dissemination of analytical decision support systems** 2022
 - Identifying company-wide needs and preparing a roadmap.
- **Packaging equipment formats and materials catalog in Power BI** 2022
 - The dashboard used to analyze equipment formats and material properties.
- **Maturity Assessment for Operational Excellence** 2021
 - Benchmark of the current state of the organization to ensure Operational Excellence.
- **Workshop and Training of Value Stream Mapping (VSM)** 2021
 - Conducted for the first time, the flow of materials and information was analyzed in detail.
- **Master Data preparation training for MES project members** 2021
 - Designed specific content for MES project members to prepare master data.
- **Factory Digitalization Projects Committee Membership** 2020-2021
 - All digitalization projects within the factory were evaluated and followed.
- **Conceptual design and development of SAP (PP/DS)** 2020
 - Optimizing monthly production plan for more than 35M units in SAP APO PP/DS.
- **Automatic reporting of daily production amounts with dashboard** 2019
 - Visualization of production in a daily detail on a unit basis.
- **Automatizing production planning processes with Excel VBA** 2019
 - Reduced the monthly planning and preparation from 4 days to 1hr.
- **Eliminating the semi-finish phase from solid production SKUs** 2017
 - Min 1.5 hours gained each batch. More than 900 batches are produced annually.
- **Project actions tracking system in Smartsheet.com** 2017
- **5S & Visual Management in production area** 2016
- **The excel dashboard for nonconformances of production area** 2015

----- EDUCATION -----

Master of Business Administration, Sabanci University, GPA: 3.82, Turkey | 2018
Chemical Engineering, Yildiz Technical University, Turkey | 2012

----- CERTIFICATIONS -----
